American Cars, 1973Ð1980-J.
“Kelly” Flory, Jr. 2012-11-02
The 1973 oil crisis forced the
American automotive industry
into a period of dramatic
change, marked by stiff
foreign competition, tougher
product regulations and
suddenly altered consumer
demand. With gas prices
soaring and the economy in a
veritable tailspin, muscle cars
and the massive “need-for-
speed” engines of the late
'60s were out, and fuel
efficient compacts were in. By
1980, American
manufacturers were churning
out some of the most feature
laden, yet smallest and most
fuel efficient cars they had
ever built. This exhaustive
reference work details every
model from each of the major
American manufacturers from
model years 1973 through
1980, including various
“captive imports” (e.g.
Dodge’s Colt, built by
Mitsubishi.) Within each
model year, it reports on each
manufacturer’s significant
news and details every model
offered: its specifications,
powertrain offerings, prices,
standard features, major
options, and production
figures, among other facts.

Cobra Jet: The History of Ford's Greatest High-Performance Muscle Cars-Rob Kinnan 2020-03-15
Relive Ford's glory days in the muscle car era in this stunning new volume covering the popular and powerful Cobra Jets! Ford's "Total Performance" racing program in the early 1960s was the first stone turned in the task of repurposing its image to the youth market. The introduction of the Mustang increased that exponentially, but even in 289 Hi-Po form it was no match for the Pontiac GTO or other muscle cars.

Neither was the 1966 Fairlane GT or subsequent 390 Mustang the following year. But when the 428 Cobra Jet Mustang debuted at Pomona for the NHRA Winternationals in 1968, that image evolved from wholesome to fearsome! Cobra Jet Mustangs downed all comers and took the vaunted Super Stock Eliminator crown while introducing a new weapon under the hood to serve as fair warning to what was to be uncoiled at the stoplight. By the next model year with the revolutionary shaker hood on Cobra Jet-equipped Mach Is and the striking snake adorning the sheet metal of the midsize Cobra, Ford's image makeover was complete. The demise of the muscle car era didn't signify the end of the Cobra Jet, as Ford continued the performance reign with the 351 Cobra Jet. The legacy left by Mustang, Cougar, Torino, Cyclone, and Ranchero 428, 429, and 351 Cobra Jet-powered vehicles is indelible. Mustang Monthly editor Rob Kinnan and muscle car expert Diego Rosenberg bring this history back to life in an all-encompassing book that is the
