Out Of America-Keith B Richburg 2009-09-22 Keith B. Richburg was an experienced and respected reporter who had paid his dues covering urban neighborhoods in Washington D.C., and won praise for his coverage of Southeast Asia. But nothing prepared him for the personal odyssey that he would embark upon when he was assigned to cover Africa. In this powerful book, Richburg takes the reader on an extraordinary journey that sweeps from Somalia to Rwanda to Zaire and finally to South Africa. He shows how he came to terms with the divide within himself: between his African racial heritage and his American cultural identity. Are these really my people? Am I truly an African-American? The answer, Richburg finds, after much soul-searching, is that no, he is not an African, but an American first and foremost. To those who romanticize Mother Africa as a black Valhalla, where blacks can walk with dignity and pride, he regrets that this is not the reality. He has been there and witnessed the killings, the repression, the false promises, and the horror. "Thank God my nameless ancestor, brought across the ocean in chains and leg irons, made it out alive," he concludes. "Thank God I am an American."

How to Make Black America Better-Tavis Smiley 2002-01 Leading African American politicians, writers, thinkers, and artists explore the challenges confronting African American society, discussing such issues as affirmative action, crime, racial harmony, family life, and political power.

Our Black Year-Maggie Anderson 2013-05-14 Maggie and John Anderson were successful African American professionals raising two daughters in a tony suburb of Chicago. But they felt uneasy over their good fortune. Most African Americans live in economically starved neighborhoods. Black wealth is about one tenth of white wealth, and black businesses lag behind businesses of all other racial groups in every measure of success. One problem is that black consumers—unlike consumers of other ethnicities—choose not to support black-owned businesses. At the same time, most of the businesses in their communities are owned by outsiders. On January 1, 2009 the Andersons embarked on a year-long public pledge to "buy black." They thought that by taking a stand, the black community would be mobilized to exert its economic might. They thought that by exposing the issues, Americans of all races would see that economically empowering black neighborhoods benefits society as a whole. Instead, blacks refused to support their own, and others condemned their experiment. Drawing on economic research and social history as well as her personal story, Maggie Anderson shows why the black economy continues to suffer and issues a call to action to all of us to do our part to reverse this trend.

Black in Latin America-Henry Louis Gates 2011 12.5 million Africans were shipped to the New World during the Middle Passage. While just over 11.0 million survived the arduous journey, only about 450,000 of them arrived in the United States. The restOCOover ten and a half millionOCovere taken to the Caribbean and Latin America. This astonishing fact changes our entire picture of the history of slavery in the Western hemisphere, and of its lasting cultural impact. These millions of Africans created new and vibrant cultures, magnificently compelling syntheses of various African, English, French, Portuguese, and Spanish influences. Despite their great numbers, the cultural and social worlds that they created remain largely unknown to most Americans, except for certain popular, cross-over musical forms. So Henry Louis Gates, Jr. set out on a quest to discover how Latin Americans of African descent live now, and how the countries of their acknowledgeOCOdenyOCOtheir African past; how the fact of race and African ancestry play themselves out in the multicultural worlds of the Caribbean and Latin America. Starting with the slave experience and extending to the present, Gates unveils the history of the African presence in six Latin American countriesOCobrazil, Cuba, the Dominican Republic, Haiti, Mexico, and PeruOCOthrough art, music, cuisine, dance, politics, and religion, but also the very palpable presence of anti-black racism that has sometimes sought to keep the black cultural presence from view. In Brazil, he delves behind the fa ade of Carnaval to discover how this OCYrainbow nationOCO is waking up to its legacy as the worldOCO's largest slave economy. In Cuba, he finds out how the culture, religion, politics and music of this island is inextricably linked to the huge amount of slave labor imported to produce its enormously profitable 19th century sugar industry, and how race and racism have fared since Fidel CastroOCO's Communist revolution in 1959. In Haiti, he tells the story of the birth of the first-ever black republic, and finds out how the slavesOCO's hard fought liberation over Napoleon BonaparteOCO's French Empire became a double-edged sword. In Mexico and Peru, he explores the almost unknown history of the significant numbers of black peopleOCOfar greater than the number brought to the United StatesOCobrought to these countries as early as the sixteenth and seventeenth centuries, and the worlds of culture that their descendants have created in Vera Cruz on the Gulf of Mexico, the Costa Chica region on the Pacific, and in and around Lima, Peru. Professor GatesOCO journey becomes ours as we are introduced to the faces and voices of the descendants of the Africans who created these worlds. He shows both the similarities and distinctions between these cultures, and how the New World manifestations are rooted in, but distinct from, their African antecedents. OC Black in Latin AmericaOCO is the third instalment of GatesOCO's documentary trilogy on the Black Experience in Africa, the United States, and in Latin America. In America Behind the Color Line, Professor Gates examined the fortunes of the black population of modern-day America. In Wonders of the African World, he embarked upon a series of journeys to reveal the history of African culture. Now, he brings that quest full-circle in an effort to discover how Africa and Europe combined to create the vibrant cultures of Latin America, with a rich legacy of thoughtful, articulate subjects whose stories are astonishingly moving and irresistibly compelling.

Fading Out Black and White-Lisa Simone Kingstone 2018 This insightful provocative glimpse at identity formation in the US reviews the new frontier of race and looks back at the archaism of the one-drop rule that is unique to America.

Rappin' and Stylin' Out-Thomas Kochman 1972

African American Actresses-Charlene B. Register 2010 Nine actresses, from Madame Sul-Te-Wan in 'Birth of a Nation' to Ethel Waters in 'Member of the Wedding', are profiled in this book. Register poses questions about prevailing racial politics, on-screen and off-screen identities, and African American stardom and white stardom. Places of Their Own-Andrew Wiese 2005-12-15 Tracing the precise contours of black migration to the suburbs over the course of the whole last century and across the entire United States, "Places of Their Own" is a foundational book for anyone interested in the African-American experience or the role of race and class in the making of America's suburbs.

Basic Black-Karen Grigsby Bates 1996 A guide for contemporary African Americans provides information on the social rites of passage, the new corporate workplace, special occasions, and everyday rules and rituals

The Black Republic-Brandon R. Byrd 2019-11-08 In The Black Republic, Brandon R. Byrd explores the ambivalent attitudes that African American leaders in the post-Civil War era held toward Haiti, the first and only black republic in the Western Hemisphere. Following emancipation, African American leaders of all kinds—politicians, journalists, ministers, writers, educators, artists, and diplomats—identified new and urgent connections with Haiti, a nation long understood as an example of black self-determination. They celebrated not only its diplomatic recognition by the United States but also the renewed relevance of the Haitian Revolution. While a number of African American leaders defended the sovereignty of a black republic whose fate they saw as intertwined with their own, others expressed concern over Haiti's fitness as a model black republic, scrutinizing whether the nation truly reflected the "civilized" progress of the black race. Influenced by the imperialist rhetoric of their day, many African Americans across the political spectrum espoused a politics of racial uplift, taking responsibility for the "improvement" of Haitian education, politics, culture, and society. They considered Haiti an uncertain experiment in black self-governance: it might succeed and vindicate the capabilities of African Americans demanding their own right to self-determination or it might fail and condemn the black diasporic population to second-class status for the foreseeable future. When the United States military occupied Haiti in 1915, it created a crisis for W. E. B. Du Bois and other black activists and intellectuals who had long grappled with the meaning of Haitian independence. The resulting demand for and idea of a liberated Haiti became a cornerstone of the anticapitalist, anticolonial, and antiracist radical black internationalism that flourished between World War I and World War II. Spanning the Reconstruction, post-Reconstruction, and Jim Crow eras, The Black Republic recovers a crucial and overlooked chapter of African American internationalism and political thought.

Three African-American Classics-Booker T. Washington 2007-02-02 "This Dover edition ...is an original compilation of unabridged editions of the following works"—T.p. verso.

American While Black-Niambi Michele Carter 2019-09-12 At the same time that the Civil Rights Movement brought increasing opportunities for blacks, the United States liberalized its immigration policy. While the broadening of the United States's borders to non-European immigrants fits with a black political agenda of social justice, recent waves of immigration have presented a dilemma for blacks, prompting ambivalent or even negative attitudes toward migrants. What has an expanded immigration regime meant for how blacks express national attachment? In this book, Niambi Michele Carter argues that immigration, both historically and in the contemporary moment, has served as a reminder of the limited inclusion of African Americans in the body politic. As Carter contends, blacks use the issue of immigration as a way to understand the nature and meaning of their American citizenship—specifically the way that white supremacy structures and constrains not just their place in the American political landscape, but their political opinions as well. White supremacy gaslights black people, and others, into critiquing themselves and each other instead of white supremacy itself. But what may appear to be a conflict between blacks and other minorities is about self-preservation. Carter draws on original interview material and empirical data on African American political opinion to offer the first theory of black public opinion toward immigration.

Fading Out Black and White-Lisa Simone Kingstone 2018-08-31 This insightful provocative glimpse at identity formation in the US reviews the new frontier of race and looks back at the archaism of the one-drop rule that is unique to America.

Three Strikes You're Out: for Black Men in America Until the First Black President-DeRay Williams 2010-05-05 Three strikes was written to inspire and unify Americans to a common goal, the health and welfare of our nation, united we stand and divided we fall. The enemy lurking in our own back yard is greed and profit motivated special interest groups, not concerned with the health and welfare of our nation, motivated by lining their pockets with profits at our expense.

Black Faces, White Spaces-Carolyn Finney 2014-06-01 Black Faces, White Spaces: Reimagining the Relationship of African Americans to the Great Outdoors Ulysses in Black-Patrice D. Rankine 2008-03-28 In this groundbreaking work, Patrice D. Rankine asserts that the classics need not be a mark of Eurocentrism, as they have long been considered. Instead, the classical tradition can be part of a self-conscious, prideful approach to African American culture, esthetics, and identity. Ulysses in Black demonstrates that, similar to their white counterparts, African American authors have been students of classical languages, literature, and mythologies by such writers as Homer, Euripides, and Seneca. Ulysses in Black closely analyzes classical themes (the nature of love and its relationship to the social, Dionysus in myth as a parallel to the black protagonist in the American scene, misplaced Ulysses manhood) as seen in the works of such African American writers as Ralph Ellison, Toni Morrison, and Countee Cullen. Rankine finds that the merging of a black esthetic with the classics—contrary to expectations throughout American culture—has often been a radical addressing of concerns including violence against blacks, racism, and oppression. Ultimately, this unique study of black classicism becomes an exploration of America's broader cultural integrity, one that is inclusive and historic. Outstanding Academic Title, Choice Magazine

The Debt-Randall Robinson 2001-01-01 Both an unflinching indictment of past wrongs and an impassioned call to America to educate its citizens about the history of Africa and its people, The Debt says in no uncertain terms what white America owes blacks—and what blacks owe themselves. In this powerful and controversial book, distinguished African-American political leader and thinker Randall Robinson argues for the restoration of the rich history that slavery and segregation severed. Drawing from research and personal experience, he shows that only by reclaiming their lost past and proud heritage can blacks lay the foundation for their future. And white Americans can begin making reparations for slavery and the century of racial discrimination that followed with monetary restitution, educational programs, and the kinds of equal opportunities that will ensure the social and economic success of all citizens. "Engaging...Robinson continues an important conversation...His anecdotes support his attempts to reclaim African American heritage and empower African Americans."—The Washington Post

Talkin and Testifyin-Geneva Smitherman 1986 Defines Black English in the context of African-American culture and lifestyles and tackles the issue of white attitudes toward Black English

America's Black Congressmen-Maurine Christopher 1971 Covers Hiram R. Revels, Blanche K. Bruce, Joseph H. Rainey, Jefferson F. Long, Robert Smalls, John R. Lynch, Robert Brown Elliott, Josiah T. Walls, Richard H. Cain, Robert C. DeLarge, Alonzo J. Ransier, Charles E. Nash, P. B. S. Pinchback, Thomas E. Miller, George W. Murray, Benjamin S. Turner, James T. Rapier, Jeremiah Haralson, John Mercer Langston, John A. Hyman, James E. O'Hara, Henry P. Cheatham, George H. White, Oscar DePriest, Arthur W. Mitchell, William L. Dawson, Adam Clayton Powell, Jr., Charles C. Diggs, Jr., Robert N. C. Nix, Augustus F. Hawkins, Edward W. Brooke, John Conyers, Jr., Louis Stokes, William L. Clay, Shirley Chisholm.

Black Out-Preshay Knight 2020-12-12 Be inspired with a rare traveling experience and adventure from an African American prospective in Kenya. A mother and daughter's quest to step outside of the box of America seeking ancestral connection, happiness, peace and retirement in a new world and society they have never experienced. Traveling to a country you have never visited can be a new and strange feeling. However, it is not without exciting adventures. Learn about Culture, Love, History, Living, Investment and Survival the Kenyan way. Enjoy!

A Nation Within a Nation-Komozi Woodard 1999 Poet and playwright Amiri Baraka is best known as one of the African American writers who helped ignite the Black Arts Movement. This book examines Baraka's cultural approach to Black Power politics and explores his role in the phenomenal spread of black Black Empire-George Samuel Schuyler 1991 Carl Slater, a Harlem reporter, discovers a secret Black organization

Black Out Loud-Arnold Adoff 1970 A collection of poetry by twentieth-century black Americans expressing what it is like to be black in the United States. Includes capsule biographies of the poets.

Black Out-Michelle T. Johnson 2007-03 Provides information and encouragement for African Americans who seek a career change.

TRUE MYTH-Nashid Al-Amin 2013 Why is it that encyclopedias assert the Vikings, or Norsemen, landed in parts of North America, yet the Vikings have never been credited with its "discovery"? Historians bestow this honor on Christopher Columbus, who ventured here five hundred years after the Vikings, having never set foot on the continent! True Myth: Black Vikings of the Middle Ages takes the reader where he or she has never been before. We have always been told that Vikings, or Norsemen, were tall, blond, white and blue-eyed—an image that has been presented to us in books and films. Now comes a book that challenges this centuries-old assertion, presenting evidence that these vaunted warriors were not the people popular historians have told us they were. The author presents evidence that white-skinned peoples in England, Ireland, and Wales referred to Vikings as black pagans and black devils. The extent of their dominance in Europe is examined—in fact, the author presents a reassessment of Europe that some readers will find difficult to believe, beginning with man's migrations into the continent and examining a number of black-skinned peoples who called Europe home from very ancient times almost to the present. The reader has never read a book like this—filled with quotations from noted historians as well as from several Icelandic sagas—that will take the reader on a journey he or she has never imagined! A more accurate picture of Europe has never been presented before. The writer revisits the last ice age, presents evidence of the heavy presence of blacks in ancient Europe, and revisits ancient Greece, Rome, and areas of Asia, discussing the presence of black-skinned peoples in them before arriving in Viking-age Scandinavia when Norsemen embarked on a three-century-long assault on the continent and began migrating to Iceland and other areas of North America. Once the reader has completed True Myth: Black Vikings of the Middle Ages, he or she will have to question what he or she has been taught, historians once thought to be trustworthy, and the notion that the races were strictly divided and had never intermingled. There has never been a truer picture of Europe written, and the reader now has the opportunity to embark on the most thrilling journey he or she will ever take.

Reference Library of Black America-Jessie Carney Smith 2000 Presents information on all aspects of African-American life including politics, employment and income, education, religion, literature, performing arts, science and medicine, and sports.

Medical Apartheid-Harriet A. Washington 2006 Examines the history of medical experimentation on African Americans, from the colonial era to the present day, revealing the exploitation and poor medical treatment suffered by blacks, often without any form of consent.

Sister Citizen-Melissa V. Harris-Perry 2013-04-01 Discusses the stereotypes of black women in contemporary American life and how it affects African Americans, and uses literary analysis, political theory, and experimental research to fully understand the pervasiveness of their marginalization. Reprint.

Eyes off the Prize-Carol Anderson 2003-04-21 As World War II drew to a close and the world awakened to the horrors wrought by white supremacists in Nazi Germany, the NAACP and African-American leaders sensed an opportunity to launch an offensive against the conditions of segregation and inequality in the United States. The "prize" they sought was not civil rights, but human rights. Only the human rights lexicon, shaped by the Holocaust and articulated by the United Nations, contained the language and the moral power to address not only the political and legal inequality but also the education, health care, housing, and employment needs that haunted the black community. The NAACP understood this and wielded its influence and resources to take its human rights agenda before the United Nations. But the onset of the Cold War and rising anti-communism allowed powerful southerners to cast those rights as Soviet-inspired and a threat to the American "ways of life." Enemies and friends excoriated the movement, and the NAACP retreated to a narrow civil rights agenda that was easier to maintain politically. Thus the Civil Rights Movement was launched with neither the language nor the mission it needed to truly achieve black equality. Carol Anderson is the recipient of major grants from the Ford Foundation and the American Council of Learned Societies, and numerous awards for excellence in teaching. Her scholarly interests are 20th century American, African-American, and diplomatic history, and the impact of the Cold War and U.S. foreign policy on the struggle for black equality in particular. Her publications include "From Hope to Disillusion published in Diplomatic History and reprinted in The African-American Voice in U.S. Foreign Policy.

Dressed in Dreams-Tanisha Ford 2019-06-25

A Breath of Freedom-Maria Höhn 2010-09-15 This moving and beautifully illustrated book, developed from an award-winning research project, examines the experience of African-American GIs in Germany since 1945 and the unique insights they provide into the civil rights struggle at home and abroad.

Race Studs Terkel 2012-03-13 Presents the feelings of nearly one hundred Americans on such issues as affirmative action, changing neighborhoods, and secret prejudices.

Fugitive Science-Britt Rusert 2017-04-18 "Fugitive Science excavates this story, uncovering the dynamic scientific engagements and experiments of African American writers, performers, and other cultural producers who mobilized natural science and produced alternative knowledges in the quest for and name of freedom. Literary and cultural critics have a particularly important role to play in uncovering the history of fugitive science since these engagements and experiments often happened, not in the laboratory or the university, but in print, on stage, in the garden, church, parlor, and in other cultural spaces and productions. Routinely excluded from the official spaces of scientific learning and training, black cultural actors transformed the spaces of the everyday into laboratories of knowledge and experimentation"--Introduction.

Islam and the Search for African-American Nationhood-Dennis Walker 2005 The Nation of Islam and its successors after 1975 : from millenarian protest to transcontinental relationships -- African Islam in the evolution of the African-American nation : formation and development of America's multi-ethnic society -- The difficult rebirth of Islam among African-Americans, 1900-1950 -- The heyday of Elijah : his articulation of ideology in the 1960s and 1970s -- Elijah Muhammad's Muslims in a changing America -- The rise of Farrakhan in Elijah's Noi -- Farrakhan's changing post-1990 nation of Islam.

Family Patterns, Gender Relations-Bonnie Fox 2001 This completely updated, second edition offers articles that together develop a systematic understanding of family. It focuses not only on the dynamics of childcare, sexuality, and daily cohabitation, but also on the way that these patterns are shaped by the larger social culture. While some of the readings examine cross-cultural and historical variations in family patterns, highlighting the social organization of things that otherwise seem natural, the bulk of articles focus on the social relations of sexuality and intimacy, reproduction, parenting, and living together. Because these relations are typically gender relations, a concern with gender inequality is constant throughout the book. Compelling and insightful, this timely work synthesizes a broad range of approaches for all those interested in sociology of the family or women's studies.

The Black Book-M. A. Harris 2009 "A folk journey of Black America...beautiful, haunting, curious, and human." - from the introduction by Bill Cosby. Over 200 photographs. From the Trade Paperback edition.

Racism, the Inevitable in America-Edward Faison 1987

The Butterfly Effect-Marcus J. Moore 2020-10-13 This first cultural biography of rap superstar and "master of storytelling" (The New Yorker) Kendrick Lamar explores his meteoric rise to fame and his profound impact on a racially fraught America—perfect for fans of Zack O'Malley Greenburg's Empire State of Mind. Kendrick Lamar is at the top of his game. The thirteen-time Grammy Award–winning rapper is just in his early thirties, but he's already won the Pulitzer Prize for Music, produced and curated the soundtrack of the megahit film Black Panther, and has been named one of Time's 100 Influential People. But what's even more striking about the Compton-born lyricist and performer is how he's established himself as a formidable adversary of oppression and force for change. Through his confessional poetics, his politically charged anthems, and his radical performances, Lamar has become a beacon of light for countless people. Written by veteran journalist and music critic Marcus J. Moore, this is the first biography of Kendrick Lamar. It's the definitive account of his coming-of-age as an artist, his resurrection of two languishing genres (bebop and jazz), his profound impact on a racially fraught America, and his emergence as the bona fide King of Rap. The Butterfly Effect is the extraordinary, triumphant story of a modern lyrical prophet and an American icon who has given hope to those buckling under the weight of systemic oppression, reminding everyone that through it all—"we gon' be alright."

Turned Inside Out: Black, White, and Irish in the South-Bryan Gienzma 2012-03-01 As a place where Black and Green were in perpetual contact, the Atlantic South furnishes an ideal case study in how these peoples moved with, against, and around one another." This article appears in the Spring 2012 issue of Southern Cultures. The full issue is also available as an ebook. Southern Cultures is published quarterly (spring, summer, fall, winter) by the University of North Carolina Press. The journal is sponsored by the University of North Carolina at Chapel Hill's Center for the Study of the American South.
