Time-Sensitive Remote Sensing-Christopher D. Lippitt 2015-06-02 This book documents the state of the art in the use of remote sensing to address time-sensitive information requirements. Specifically, it brings together a group of authors who are both researchers and practitioners, who work toward or are currently using remote sensing to address time-sensitive information requirements with the goal of advancing the effective use of remote sensing to supply time-sensitive information. The book addresses the theoretical implications of time-sensitivity on the remote sensing process, assessments or descriptions of methods for expediting the delivery and improving the quality of information derived from remote sensing, and describes and analyzes time-sensitive remote sensing applications, with an emphasis on lessons learned. This book is intended for remote sensing scientists, practitioners (e.g., emergency responders or administrators of emergency response agencies), and students, but will also be of use to those seeking to understand the potential of remote sensing to address a range of pressing issues, particularly natural and anthropogenic hazard response.

Суперпродавці. Як навчитися продавати, а не впарювати-Метью Діксон 2019-04-30 Успіх вашого бізнесу залежить від низки чинників, але один із перших — це ефективність відділу продажів. Саме команда продуктивних продавців може стати вашою суперсилою, яка допоможе випереджати конкурентів навіть у складні економічні часи. Як зробити із посереднього менеджера з продажів справжню зірку? Які вміння, знання та підходи впливають на ефективність продажів? На ці та інші питання дають відповідь Метью Діксон та Brent Adamson.
